

Dang I really drank too much I need a ride home.

The uber is \$50 and it's a 3 mile ride and the driver has 2 stars and a criminal record

Thank goodness there is this other ride sharing app that is cheaper and has safe drivers.

I finally made it home safely after a night of drinking and it wasn't nearly as expensive

This function is lit!

I'm way too plastered to whip right now. I'm not paying 100 dollars for an uber!

Finally an affordable and safe ride to drive my friends home.

I'm so happy I saved money and got home safe, can't wait to run it back
